

# VISUAL AGENDA CARDS

Visual agenda cards can be a helpful tool to **preview your program**. Previewing the program offers kids and families a glimpse of what to expect. It can help **ease anxiety** or uncertainty and help kids manage expectations. If kids know what is happening next, they are more likely to participate and engage now.

To use the visual agenda cards:

- **Print** out the cards you'll need. Blank cards are included for you to create new tasks.
- (Optional) **Laminate** the cards to make them more durable.
- Tape each card, in order of use, to a wall or board. You can even **add hook and loop tabs** to the back to be used on a felt board.
- As you complete an action, **remove** the card from the timeline so participants can follow along.
