# TASTE & SEE

NATURAL GAS COOKING DEMONSTRATIONS AND PRESENTING SPONSOR

**NINE NETWORK CONTRIBUTES TO A STRONG, VIBRANT, THRIVING ST. LOUIS**

region by creating opportunities for citizens to learn, connect and grow. Emmy-winning *Feast TV* on Nine PBS explores local food and drink by taking viewers into the kitchens of the makers who define our region's distinct culinary scene. With our unique assets, we turned *Feast TV* into a live multimedia event—Taste & See.

## **Taste & See with Nine Network and Feast TV is a live summer series outdoors in Nine Network's Public Media Commons.**

Attendees get to taste the food and meet the makers who define our region's burgeoning and well-regarded culinary scene. And, the sold-out series is an opportunity for the food and beverage vendors to engage with their potential customers.

Two to three small food portions from up to 10 restaurants and drink vendors are included in the ticket price, plus there's live music, cooking demonstrations and interviews with Feast TV host, Catherine Neville, which are projected onto the large-scale video walls in the Commons. "It's like broadcasting a live show while the event is going on," says Neville. "It's entirely original and really, really fun."

Taste & See underscores the important role that public media plays in bringing our community together. With a reach that encompasses rural, suburban and urban areas, Nine Network is uniquely positioned to understand, highlight and honor the similarities and differences of people in our region.

**"GREAT FOOD AND DRINK,  
an opportunity to learn about [the] food  
scene in STL area, and a fantastic venue."**

—Attendee

## **2019 THEMES**
