9:00PM Gut Check: Hope for Ultimate Health with Brenda Watson

For more than 25 years, Brenda Watson - the "Diva of Digestion" and a naturally gifted teacher - has dedicated her life to helping people achieve vibrant health. Throughout her career, she has communicated a message of H.O.P.E. (High fiber, Omega 3s, Probiotics, Enzymes), helping tens of thousands of people transform their health and live a vital lifestyle. She has long advocated for simple, accessible changes people can make to improve their metabolic health and decrease their biological age and risk of chronic disease. Her formula for health and enhanced quality of life is now more important than ever, and her message will educate and empower viewers with information to make transformative changes. This program presents the new science supporting The H.O.P.E. Formula through entertaining and engaging storytelling, with visual examples (both on set and graphically) of the key components of the dietary approach. As a hybrid studio-documentary production, Brenda hosts segments on stage in front of a live audience, along with field interviews with other medical experts. Through enlightening research and inspiring success stories, this program offers H.O.P.E to viewers interested in utilizing dietary tools to realize true health and vitality.

This critically acclaimed documentary traces Jimi Hendrix's journey to the Atlanta International Pop Festival and features 16mm multi-camera footage of his unforgettable performance on July 4, 1970. Against the backdrop of civil rights unrest, the toll of the Vietnam War and a burgeoning festival culture inspired by Woodstock that drew young people from across the country, the concert took place in a dusty, scorching hot pecan orchard in Byron, Georgia.

10:30PM Canefield Songs: Holehole Bushi

In this new film, Professor of Anthropology Christine Yano explains, "If we want to know something of what some of these women's lives were like...we could do no better than to listen to their own words, as expressed through song." The women that Professor Yano is referring to are Japanese immigrants who worked in Hawaii's sugarcane fields in the late 19th and early 20th centuries. Through their canefield songs, or holehole bushi, these women sang about their joys and sorrows of trying to start life in a new world. Hosted and narrated by ukulele virtuoso Jake Shimabukuro, the film tells the story of music teacher Harry Urata, and his efforts to record, preserve and perpetuate these musical oral histories.

8:00PM The Seven Ages of Elvis

If the world is a stage, then Elvis Presley was its finest performer; his sound and style personified an era. The ultimate "rise and fall" megastar, he defined the heights and pitfalls of modern super-celebrity. His humble childhood in Tupelo, Mississippi, exposed him to Black cultural influences that created an electric fusion of elements that shaped a new musical sensation. Director David Upshal's acclaimed film delves deeply into the life and world of Elvis, revealing the true evolution of modern pop music. The film also explores why Elvis became an even bigger phenomenon after his death, worth more annually than John Lennon, Frank Sinatra and David Bowie combined. By dividing his life into seven distinct phases, the film marries his achievements to his times and their historical context. (Next Air 03/07/2023 09:00PM)

7:30PM California's Gold - Blue Angels

They're one of the most famous air squadrons in the world -- serving as positive role models and goodwill ambassadors not only for our Navy, but for our country. We're talking about the Blue Angels who, since first formed in 1946, have been demonstrating their flying skills and maneuvers to literally millions of spectators each year. And for over 30 years the Blue Angels have been a part of "California's Gold." Since 1967 the squadron has spent the winter at Naval Air Facility, El Centro, training pilots and new crew members. The good weather and open spaces make this a perfect place to practice and, over the years, squadron members have become a welcome part of the community in Imperial County during their three months of intensive preparation for the 70 air shows they fly each season. On this particular adventure host Huell Howser accepts an invitation to spend a couple of days with the Blue Angels and ends up not only watching them train, but actually gets to go up with them in an F/A18 Hornet for the ride of a lifetime. Huell also meets former Blue Angel pilots who talk about the "good old days," and visits with local citizens who talk about the pride the community of El Centro feels in having the squadron there each winter. All in all, it's a fast-paced, high-powered, high altitude adventure in search of "California's Gold." (Next Air 03/12/2023 03:30PM)

8:00PM Ancient Remedies with Dr Josh Axe

Ancient Remedies with Dr. Josh Axe is based on Dr. Josh Axe's latest and most compelling book to date. It exemplifies his deep-seated passion, vision and mission to help people truly heal at the root cause of illness in order to live their best lives. Dr. Axe's heart centered approach can be traced to successfully guiding his mother through her extensive health struggles, after which he committed to a life's work of sharing the methodology that worked for her, and his patients. With Ancient Remedies, Dr. Axe's goal is to empower people to find wellness in their own lives by focusing on the powerful benefits of using food to heal your body; an approach rooted in an age-old practice but tailored to our modern world. Ancient Remedies is a new way of thinking about health and healing - one based on the time-tested knowledge from ancient medical systems that use natural solutions to address digestive issues, hormonal imbalances, inflammatory conditions, immune dysfunction, neurological disorders, and autoimmune disease. The ancient approach to illness lies in a single, simple strategy: Instead of treating symptoms, heal the root cause of the disease. Ancient healers not only believed in identifying the root cause of each patient's health problem, but they also spent years meticulously researching, cataloguing and studying which natural remedies were most effective in healing each condition. The most common remedies included superfoods, mushrooms, herbs, spices and essential oils. Today's research, which Dr. Axe explains in this program, also shows the efficacy of this approach so families can make the best health choices for themselves. (Next Air 03/12/2023 11:30AM)

10:30PM Canefield Songs: Holehole BushiRepeat of 03/03/2023
10:30PM

In this new film, Professor of Anthropology Christine Yano explains, "If we want to know something of what some of these women's lives were like...we could do no better than to listen to their own words, as expressed through song." The women that Professor Yano is referring to are Japanese immigrants who worked in Hawaii's sugarcane fields in the late 19th and early 20th centuries. Through their canefield songs, or holehole bushi, these women sang about their joys and sorrows of trying to start life in a new world. Hosted and narrated by ukulele virtuoso Jake Shimabukuro, the film tells the story of music teacher Harry Urata, and his efforts to record, preserve and perpetuate these musical oral histories.

11:00PM Woodsongs - The Quebe Sisters and Kory Caudill with Wordsmith

THE QUEBE SISTERS' authentic triple fiddle and three-part harmony thrills the concert halls and festivals of North America, Europe, and Russia for over 15 years. Grace, Sophia, and Hulda Quebe front an innovative Progressive Western Swing band of archtop guitar, upright bass, fiddles, and sibling harmony. KORY CAUDILL was born and raised in the Appalachian hills of Kentucky and is widely considered one of the world's top virtuoso pianists. The young artist has celebrated groundbreaking achievements including debuting inside Billboard's top ten Jazz and New Age categories. Caudill's American Hymn songbook album connects musicians, artists, and creatives to shape a musical journey exploring the powerful intersection between art, social justice, and faith. He performs with Baltimore-based rapper Wordsmith. WoodSongs Kid: Dylan "Boogie Boy" James is an award-winning blues pianist from Dallas, Texas.

9:00PM Great Performances - Remember This

Adapted from the play by Clark Young and Derek Goldman, and starring Academy Award-nominee David Strathairn in a virtuoso solo performance as World War II Polish resistance fighter Jan Karski in a genre-defying true story of a reluctant hero and Holocaust witness. After surviving the devastation of the Blitzkrieg, Karski swears allegiance to the Polish Underground and risks his life to carry the first eyewitness reports of war-torn Poland to the Western world, and ultimately, the Oval Office. Escaping a Gestapo prison, bearing witness to the despair of the Warsaw ghetto and confronted by the inhumanity of a death camp, Karski endures unspeakable mental anguish and physical torture to stand tall in the halls of power and speak the truth. Strathairn captures the complexity and legacy of this self-described "insignificant, little man" whose timely story of moral courage and individual responsibility can still shake the conscience of the world. The program also includes an exclusive behind-the-scenes companion film produced by The WNET Group's Exploring Hate initiative that examines the ongoing relevance of Jan Karski's story for today's world. 7:30PM California's Gold - Guadalupe

At first you can't believe it's real. It must be a movie set of a small, picturesque, agricultural town at the turn of the century. But with just a little exploration host Huell Howser discovers this is no movie set, but a fine example of "California's Gold." Located halfway between San Francisco and Los Angeles just a few miles off the 101 freeway, the little town of Guadalupe sits right in the middle of one of the richest agricultural areas in our state. Huell gets up early and visits the fields, talks with the workers and watches as they harvest celery and lettuce. While there, he also discusses the rich cultural heritage of the area as he talks with descendants of Filipino families who have been living and working in the Santa Maria Valley for generations. The adventure also includes a tour of the authentic and colorful town itself and a visit to the nearby spectacular Guadalupe Dunes. In reality this entire adventure provides an opportunity to meet some nice people, see some beautiful scenery, learn about our agricultural heritage and savor the ambiance of a very special place on our central coast -- a place full of "California's Gold." 7:30PM California's Gold - Delta Queen

For 50 years one of the most popular ways to travel up and down the mighty Mississippi River has been aboard the authentic paddlewheel steamboat Delta Queen. To ride on this boat is to step back in time -- in fact, the Delta Queen has been declared a National Historic Landmark and is listed on the National Register of Historic Places. But true riverboat buffs will tell you that the Delta Queen was not originally built to travel on the Mississippi River. It's a California boat, built in Stockton in the late 1920's for service on the Sacramento River. The Delta Queen spent the first 20 years of her life as a night-boat taking passengers back and forth from Sacramento to San Francisco and becoming a familiar and much-loved part of the California landscape. In 1947, the proud paddlewheeler left California, was towed through the Panama Canal and began her service on the Mississippi River. Now, 50 years later, producer/host Huell Howser travels over 2,000 miles east to rediscover the Delta Queen's California history and roots. Also, along for the ride are several Californians who remember her "good ole days" and have great stories to tell about her time on the Sacramento River. (Next Air 03/26/2023 03:30PM)

Repeat of 03/19/2023 03:30PM

At first you can't believe it's real. It must be a movie set of a small, picturesque, agricultural town at the turn of the century. But with just a little exploration host Huell Howser discovers this is no movie set, but a fine example of "California's Gold." Located halfway between San Francisco and Los Angeles just a few miles off the 101 freeway, the little town of Guadalupe sits right in the middle of one of the richest agricultural areas in our state. Huell gets up early and visits the fields, talks with the workers and watches as they harvest celery and lettuce. While there, he also discusses the rich cultural heritage of the area as he talks with descendants of Filipino families who have been living and working in the Santa Maria Valley for generations. The adventure also includes a tour of the authentic and colorful town itself and a visit to the nearby spectacular Guadalupe Dunes. In reality this entire adventure provides an opportunity to meet some nice people, see some beautiful scenery, learn about our agricultural heritage and savor the ambiance of a very special place on our central coast -- a place full of " California's Gold."

9:30PM Songs at the Center

Hosted by singer-songwriter Eric Gnezda, from The Peggy R. McConnell Arts Center of Worthington (OH) (Pronunciations: Earle=Earl; MojoFlo= Moe-joe-FLOW; Barrie=Barry; Knicole=Ni-COAL, Kolhoff=COAL-hoff; Gnezda=NEZZ-duh). EMILY EARLE - Emily Earle, a graduate of Berklee College of Music, comes by her talent honestly, as she's the niece of Steve Earle. Her songs are a mix of heartfelt lyrics and contagious melodies - falling somewhere between early Miranda Lambert, classic Sheryl Crow, and unmistakable Linda Ronstadt. Influenced by the distinctive places she grew up, Emily combines Texas grit with Colorado cool. Emily's new music gives fans the honesty they've grown to love as well as a fresh edge. Emily co-wrote all six songs on her new EP and had Ashley Monroe, Angaleena Presley, Sarah Buxton, Steve Earle and Audley Freed lend their talents on the album. Emily is currently focused on promoting her new music, set to be released this spring. Her song "News From Colorado," written with Steve Earle and Allison Moorer, is on the new Steve Earle album. MOJOFLO (AMBER KNICOLE, GEORGE BARRIE & WALTER KOLHOFF) - Amber Knicole, George Barrie & Walter Cavanaugh Kolhoff, of the Neo funk group MojoFlo, are known for their captivating stage performance as their infectious rhythms and catchy lyrics. They were named "Best Band" (2016) by both Columbus (OH) Monthly and (614) Magazine for their dynamic live shows featuring Amber's vivacious vocals. MojoFlo has shared the stage with Rebirth Brass Band, Trombone Shorty, Big Sam's Funky Nation, Joan Jett, KC and the Sunshine Band and the Dynamites featuring Charlie Walker. ALFA - A Warner Music Philippines artist, Alfa was born in the Philippine countryside and raised on the East Coast as a classical musician, approaches her pop songs from a unique source, blending dynamic melodies with a sweet but textured voice and an array of instruments - guitar, ukulele, violin, piano, and the occasional kazoo. She draws lyrics from her life's rotating themes, from love to restlessness, to settling down, to self-reliance. Music Connection has called her "an artist who has a spectrum of colors in her palette, a songwriter with a knack for tickling a mainstream ear." Some notable venues played include the NAMM Main Stage, LA's Troubadour, Lincoln Center's Avery Fisher Hall in NYC, and The Bluebird in Nashville. ABOUT THE VENUE - Transformed from a retired high school built in 1915 into a thoroughly modern arts center and performance space, The Peggy R. McConnell Arts Center of Worthington is the home theater of Songs at the Center.

7:30PM California's Gold - China Clipper

They were huge flying boats named after the great sailing ships that in the 1800's sailed the oceans of the world. The luxurious Pan American "Clipper" planes of the 1930's took cargo, mail and passengers around the world in what was, for its time, considered a daring and pioneering feat. Pan American's Treasure Island terminal and lagoon became the home port for the Clipper's Pacific operations -- connecting the United States with the Far East by air. Starting in the mid-1930s, and lasting for only five years, residents of the Bay Area were treated to the sights and sounds of these huge boat planes taking off and heading out over the Pacific. Recently in a very special episode of "California's Gold," history repeated itself as, once again, a boat plane landed on the Bay, taxied up to a docking area near Treasure Island, took on passengers and flew out over the city. This episode is a tribute to the "China Clipper" and its California connection. The original Terminal building on Treasure Island is the stage where former Pan American pilots and crew members who actually flew the Clipper, gather once more for conversation and reminiscing. Producer/host, Huell Howser experiences his high point when he climbs aboard one of these historic boat planes with two former crew members for a short, exciting flight around the Bay area. The days of the Clipper are gone forever, replaced decades ago by long-range jets. But for a few hours on a beautiful spring afternoon, some of the glory days of the great Clipper ships, and the people who made those days happen, returned to Treasure Island. It's a look back at a glorious part of our aviation history as we take to
