Nearly all of us have felt anxious, sad, exhausted, or hopeless at some point in life ... or we know someone who has. You are not alone. According to the National Institutes of Mental Health, 51% of the US population will have a mental illness at some point in their lives. Anxiety disorders are the most common, followed by depression, ADHD and addictions. It's more normal to have a problem than not to have one. Many people want to get help, but feel embarrassed or ashamed, because of the stigma attached to mental health issues, so they end up suffering in silence or overeat, use alcohol, or rush to take the latest medications to try to make themselves feel better fast, but it often doesn't last. Feel Better Fast and Make It Last will show viewers the strategies taught to patients at Amen Clinics, where they have one of the highest published success rates for people who suffer from anxiety, depression, addictions and grief. The program set contains many time pieces to highlight to viewers that many of the techniques Dr. Amen will share literally take just a few minutes or even less. (Next Air 03/24/2019 09:30AM)

Following his very successful first program, Dr. Josh Axe returns to public television in an entertaining new presentation to share cutting-edge health and nutrition advice based on his new book *The Keto Diet*. In his familiar upbeat style, Dr. Axe puts his own fresh spin on the widely successful and well-researched keto diet. Unlike many fad diets that come and go with very limited rates of long-term success, the ketogenic diet (or "keto diet") has been practiced for more than nine decades and is based upon a solid understanding of physiology and nutrition science. The program showcases delicious food and recipe options. It includes a demonstration of how to make Dr. Axe's preferred keto-friendly, gut-healing smoothie recipe. Dr. Axe clearly outlines the great benefits of the keto diet beyond fasting and weight loss: reduced risk for type 2 diabetes, reduced risk of heart disease, resistance to brain and neurological disorders, and more. The keto diet works for a high percentage of people and it targets several key, underlying causes of weight gain, including hormonal imbalances. This is especially true of insulin resistance coupled with high blood sugar levels. The keto diet also ends the cycle of restricting and binging on empty calories that so many dieters struggle with. That cycle is often a result of hunger, which is not a factor on the keto diet, as the list of approved, satiating foods is long.

11:00PM Woodsongs - Julian Lage & Chris Eldridge & and Aoife O'donovan

JULIAN LAGE & CHRIS ELDRIDGE first full-length album 'Avalon' is a vivid snapshot of this duo's repertoire, circa 2014; a portrait of a burgeoning friendship between two virtuosic players; and, at its heart, a pristinely recorded love letter to the sound of the acoustic guitar. Lage has, since childhood, been highly regarded in jazz and new music circles for his own work as well as for his collaborations with such artists as Gary Burton, Nels Cline, Fred Hersch, and Jim Hall, among many others. Chris Eldridge is equally noted in the progressive bluegrass world for his stints with The Seldom Scene and The Infamous Stringdusters, which led to his joining Chris Thile's adventurous, Grammy-nominated quintet, Punch Brothers. AOIFE O'DONOVAN has gained wide recognition through an impressive list of projects including the captivating lead singer of the Boston-based progressive string band Crooked Still and 'The Goat Rodeo Sessions' (with Yo-Yo Ma, Edgar Meyer and Chris Thile). The Washington Post describes her singing as "almost too gorgeous for its own good." She has made regular appearances on A Prairie Home Companion and collaborated with some of the most eminent names in music across a wide variety of genres from Alison Krauss to Dave Douglas.
