

The Sightings of Me and My other Monstrous Friends

By Afton H

Hi my name is Chupacabra. I'm going to show you my monstrous friends. The first one is Bigfoot. Here is Dr. Jonny the Explorer's description of the sighting:

After breakfast at my campsite at Redinger Campground, I saw Bigfoot right outside my tent. I said, "Are you just a normal person who hasn't shaved in years?" Bigfoot said, "Yeah. Can I borrow your shaver?" I said, "OK." Then we took a selfie.

Next is me. Here is a page from Mr. Babyhead's sighting of me.

I was eating some berries. I spotted a Chupacabra. I said, "Goo goo puppy." Because I am a baby.

Next, is Mr. Jonnyhead's sighting of the Loch Ness Monster.

I was at Loch Ness... I was just renting a boat there when I saw in the lake the Loch Ness monster! It was putting it's head in the water and I was like "What is he doing?" He told me he was drinking.

So, now that it's the end of the book. I just wanted to say look for monsters. They are cute and adorable. The end!
