SALLY RECYCLES

Written and Illustrated by Esther
Once Upon a time there was a girl named Sally. One sunny afternoon she decides to go on a walk around her neighborhood.
Sally takes a look at her neighborhood and realizes that there is a lot of trash on the ground. Sally thinks this is a big problem.
Just then Sally remembers that her parents are extremely intelligent scientists. She asks them, "Why is our town so dirty?"
They show her a picture of Earth from space. The green land parts and the blue ocean were covered in brown dirt!
After Sally sees this picture, she comes up with a plan.
She decides to gather her friends, family and classmates to clean the earth. The first place they clean up is in their own hometown.
After a long day of cleaning up litter Sally enjoyed a day in the sun and celebrated with ice cream.
