Experience Vegas PBS

Based on the size of our television audiences, Vegas PBS is Southern Nevada’s largest classroom, and our community’s largest performing arts stage. For 50 years, viewer donations have allowed us to broadcast trusted, valued and essential programming to our community. Everything we do at Vegas PBS starts with the public television programming that members like you make possible through your generous support, but we don’t stop at your TV or computer screen. We extend the impact of these quality programs in our community by adding complementary face-to-face experiences in cooperation with many community partners.

The educational children’s programs on our PBS and PBS KIDS channels have vast audiences. This month, in cooperation with The Smith Center, fans of Wild Kratts can enjoy the dynamic Kratt brothers in person on January 27. The rest of the month, our PBS Ready To Learn educational outreach staff will present over 60 workshops for children and parents at hospitals, libraries, schools and housing complexes. Topics will include how to use PBS KIDS programs and websites to advance school success with reading, science, math and self-esteem as well as practicing good nutrition, oral health and exercise at home.

Teachers are vital partners in extending Vegas PBS educational content to Southern Nevada’s children. Our internet-based PBS LearningMedia is a free service offering over 100,000 digital resources. It delivers research-based, classroom-ready digital learning experiences to engage students around standards-aligned curriculum concepts. On average, the students of educators who regularly use these resources outperform national assessment norms by 10 percentage points on selected content area National Assessment of Educational Progress (NAEP) assessment questions. This month some of our best local educators will be honored in our studios at a reception honoring 129 CCSD teachers who have earned their National Board Certification. The next day, that same studio will host family and friends cheering on student contestants in the 50th year of the annual Varsity Quiz program.

Performing arts aficionados will attend a recording of a future Ryan Ahern television concert at the Orleans Showroom on January 26 and will look forward to memorable events at the Rick Steves’ Europe concert and Michael Bublé T-Mobile Arena concerts in March. A group of Nature and Outdoor Nevada fans will experience Valley of Fire and Zion National Park on one of our travel experiences January 26-27. Those who appreciate Rick Steves’ Europe, Nightly Business Report and our financial literacy specials from Suze Orman will gather on January 23 for a Travel in Retirement Seminar presented by our Planned Giving Council.

Allowing the intellectually curious people who watch PBS programs to experience face-to-face encounters with similar viewers, teachers, program hosts, world class performer; or fascinating destinations is another way Vegas PBS strives to provide extended educational and cultural experiences related to our programming. Extending viewer experiences beyond the screen allows participants to optimize the power and potential of media to educate and empower people. We thank you for the support that is getting 2019 off to a great start!

The roots of these guests cover the globe — from Samoa, Nigeria, Taiwan and Sicily to Iran, Ireland, India and Cuba — and almost everywhere in between. Their family trees are filled with compelling characters — slaves and kings, artists and entrepreneurs, abandoned children and missing parents, revolutionaries, soldiers, and a constant flow of ordinary individuals who did remarkable things, laying the groundwork for their successful descendants. Each episode weaves together these stories, gleaned from cutting-edge DNA analysis and old school genealogical detective work. Highlights include a search for Andy Samberg’s biological grandparents, the discovery of Michael Strahan’s deep European ancestry and the solution to a mystery that has plagued Ann Curry’s family for her entire life.

At the center of it all, guiding every discovery, is host and executive producer Henry Louis Gates, Jr., the Alphonse Fletcher University Professor at Harvard University and director of the Hutchins Center for African and African American Research. In a very personal episode, the new season also explores Gates’ own DNA story and takes a look at how science and history can inspire the next generation. Repeats the following Sundays at 4:30 p.m.

EPISODES THIS MONTH INCLUDE:

**Grandparents and Other Strangers**

*January 8*

Host Henry Louis Gates, Jr., helps actor Andy Samberg and author George R. R. Martin answer some family mysteries when DNA detective work uncovers new branches of their family trees. The DNA analysis upends family history and reveals new relatives.

**Mystery Man**

*January 15*

Henry Louis Gates, Jr., helps actors Felicity Huffman and Michael K. Williams discover a wealth of hidden family history. Both grew up knowing little about their biological fathers, and seeing their lost ancestry restored proves deeply empowering.

**Reporting on the Reporters**

Host Henry Louis Gates, Jr., shows journalists Christiane Amanpour, Ann Curry and Lisa Ling that the stories within their own family trees are every bit as compelling as the news stories they have been covering for the world.

**Dreaming of a New Land**

*January 29*

Henry Louis Gates, Jr., explores with Marisa Tomei, Sheryl Sandberg and Kal Penn the tremendous challenges faced by their immigrant forbearers. From Italy, Russia and India to America, their histories show success could take generations to achieve.

“More than 200 artists fill the Met stage for this performance of one of the most popular and beloved operas of all time...”
This month, we are thrilled to present the highly-anticipated new season of this phenomenal drama. It is 1848, and revolution is breaking out across Europe. In Britain, one woman stands between order and chaos: Queen Victoria. Jenna Coleman stars as the young but fearless monarch, facing a crisis that threatens to end her reign.

As Season 3 gets underway, Victoria is pregnant with her sixth child. But she has much else on her mind, chiefly the Revolutions of 1848, when the downtrodden throughout Europe begin agitating for the overthrow of aristocratic rule. In England, this discontent leads to Chartism, a set of demands for universal male suffrage, the secret ballot, equal representation for voters and other reforms. As with many crusades, passions are aroused on both sides — sometimes violently. At the time, who knew if events might turn out like the French Revolution, which resorted to widespread use of the guillotine? Each new episode will encore the following Sunday at 8 p.m.

“Victoria is pregnant with her sixth child. But she has much else on her mind...”

Victoria Season 2 Marathon
Parts 3 and 4 on December 30
at 9 p.m. and 10 p.m.
Parts 5, 6 and 7 on January 6
at 8 p.m., 9 p.m. and 10 p.m.
Part 7 on January 13 at 7:30 p.m.

Our marathon of Season 2 concludes this month, leading into the premiere of the all-new Season 3. Season 2 finds Victoria adapting to motherhood after the birth of her first child. Meanwhile, the disaster of the Anglo-Afghan War unfolds abroad, and the catastrophic Irish potato famine begins to wreak havoc. In other foreign affairs, a royal state visit to France is in the offing. Most intriguing to Prince Albert is the budding Industrial Revolution, which is now sweeping England. Then there is William Fothergill Cooke’s miraculous electrical telegraph, not to mention Marc Isambard Brunel’s daring — and dangerous — Thames Tunnel.

Father Brown
Season 1 Marathon
Sunday, December 30 at 9 a.m.
to 5:30 p.m.

Set in the 1950s in the heart of the beautiful English countryside, Mark Williams stars as Father Brown, the Catholic priest who also happens to have a particular talent for solving crimes. Many years spent hearing his parishioners’ confessions have given him an uncanny insight into the origins of evil and the workings of the criminal mind. Full of humor and compassion, but with a big dramatic twist each time, this series remains true to the period charm of the original character and setting while bringing a contemporary edge to the storytelling.

Call the Midwife Season 5
Sundays at 7 p.m.
(Not: January 13 start time is 6:30 p.m.)

This month, we are airing Season 5 of this hugely successful series, as we eagerly look forward to the premiere of the new Season 8 in March. Relive once again the touching and compelling stories from the nurses and nuns of Nonnatus House. Taking place in 1961, this season finds Sister Monica Joan missing at Christmas time, leaving the nuns and nurses distraught. Elsewhere Trixie, having battled through her issues with alcohol, finds a new purpose in her keep fit classes. And could friendship blossom into something more for vicar Tom Hereward and Barbara?

“...the Catholic priest who also happens to have a particular talent for solving crimes.”

Please see page 29 for more details.

Vera
Thursdays at 10 p.m. beginning
January 17

This gritty crime drama joins our Thursday line-up, starring Academy Award nominee Brenda Blethyn (“Atonement”) as Chief Inspector Vera Stanhope. Vera is an experienced and brilliant murder investigator in the North East England county of Northumberland. Kind-hearted but an inherent loner, Vera freely admits she can become obsessed with her job; driven by her own demons, the detective faces the world with caustic wit, guile and courage. In the series premiere, a handsome young man and a coquettish student teacher have nothing in common between them — except that both were murdered and left with their bodies meticulously posed. As the killer begins to zero in on a third victim, DCI Stanhope finds suspects and motives mounting.

A Message from a Member of the Vegas PBS Content Director

A Look at the Year Ahead

Your member dollars are being well spent on quality programming for the year ahead. We’ve purchased several new titles that will enhance our local schedule, above and beyond what our national dues to PBS provide. We use your member funds to purchase programs from independent producers, as well as national and international distributors.

Here’s a look at just some of what you can look forward to seeing in the coming year. While we don’t have specific air dates for some of these titles yet, we’ll be sure to feature them right here in Vegas PBS Source magazine, so keep an eye out for them in 2019.

It has been a very long wait for Doc Martin fans, but your patience will soon be rewarded! We’ve purchased all eight of the brand-new episodes of Doc Martin Season 8, and they will debut on Thursdays at 9 p.m. beginning January 17.

We’ve also purchased two new seasons of a Saturday night favorite, Midsomer Murders. We are pleased to announce that Idris Elba will return to the Saturday night lineup as Luther at 10 p.m. beginning January 5, and we are keeping an eye out for a new season of Death in Paradise.

We are also investing in new drama mystery series including Vera, inspired by best-selling novelist Ann Cleeves, and Shakespeare & Hathaway — Private Investigators, featuring a hard-boiled private inspector and his rookie sidekick who form the unlikeliest of partnerships as they investigate the inhabitants of rural Warwickshire and their secrets.

Royal history will come to life in new documentaries. Queen Victoria and Her 9 Children is billed as a “right royal saga,” and The Queen Mother is a moving profile that reveals the dramatic inside story of the Queen Mother’s tumultuous life, from royal power struggles to the darkness of World War II. We are also investing in Secrets of the Masons, which tells the story of the rapid global growth of the Scottish Freemasonry and its centrality to the Enlightenment of the 18th and 19th centuries.

In addition, there are a few big series coming to us from PBS, including Victoria Season 3 on Masterpiece, which kicks off at 8 p.m. on Sunday, January 13, featuring 8 new episodes. And a new 2-part series hosted by Dr. Henry Louis Gates, Jr.; Reconstruction: America After the Civil War is slated to debut on Tuesdays, April 9 and 16. Also slated for an April release is a new 6-part adaptation of Les Misérables on Masterpiece. And in Summer 2019, NOVA and American Experience are slated to have content around the 50th anniversary of the landing on the moon.

We hope you’ll enjoy all the new titles that we’re bringing to you in 2019. Thank you for your generous donations that make it possible for us to purchase these programs for you, and for everyone in our community, to enjoy.

“Here’s a look at just some of what you can look forward to seeing in the coming year.”

A Special Thank You to the sponsors of our winter membership campaign

Monday, January 21 at 8 a.m.

Geared for children ages 5-8, this live-action series follows two young agents, Olive and Otto, who are part of an agency that seeks to save the day using math when odd things happen. Throughout the series, Olive and Otto learn not only how to solve problems but also about working together, communication and perseverance. In this fun one-hour special, the agents face an unlikely villain and must work together to save the world. The special repeats on Tuesday, January 22 at 7 a.m. and at 1:30 p.m.; Wednesday, January 23 at 1:30 p.m.; and Thursday, January 24 at 7 a.m.

CCSD Spelling Bee 2019
Friday, January 25 at 1:30 p.m., Sunday, January 27 at 9 a.m. and Monday, January 28 at 7 a.m.

The spellers that participated in the Clark County School District (CCSD) Spelling Bee have proven themselves at several levels of competition, with outstanding spellers earning a spot as one of the top seven students from within the 6th, 7th and 8th grades. The Final Spelling Bee was held in December at Vegas PBS where two spellers within each grade level spelled their way to the top. These spellers have earned their place in the Nevada State Spelling Bee that will take place in March of 2018. Cheer on these young scholars in this exciting competition.

NOVA: Beyond Pluto
Wednesday, January 2 at 9 p.m.

The New Horizons spacecraft attempts to fly by a mysterious object known as Ultima Thule, believed to be a primordial building block of the solar sys-
tem. Three years after taking the first spectacular photos of Pluto, New
Horizons is now four billion miles from Earth, trying to achieve the most distant
flyby in NASA's history. If successful, it will shed light on one of the least
understood regions of our solar system: the Kuiper Belt. NOVA is embedded
with the New Horizons mission team, following the action in real time as they
uncover the secrets of what lies beyond Pluto.

Luther
Saturdays at 10 p.m.
beginning January 5

"People" magazine’s Sexiest Man Alive returns to Vegas PBS this month. Idris Elba
stars as maverick detective John Luther in this gripping, smart and
entertaining thriller. A detective working for London's Serious Crime Unit, Luther is a
dedicated policeman, an inspired maker of connections and a whirlwind genius. He is
dazzling, obsessive and sometimes dangerous in the violence of his fixations.
Throughout the series, Luther faces a succession of psychological duels
between hunter and hunted, predator and prey. But as the stakes get even
higher and more personal, Luther’s lonely path pulls him towards the very
edge of temptation.

Victoria and Albert: The Wedding
Sundays, January 13 and 20 at 10 p.m.

Enjoy a recreation of the wedding that changed British matrimonial ceremonies forever. This new two-part series, hosted by Lucy Worsley, celebrates an enduring love that was to melt the nation's heart and set the standard for generations of brides to come. Part 1 joins the experts preparing to reconstruct the wedding that changed history. They investigate the stories behind the dress, food and music. Then in Part 2, witness the most accurate reconstruction of Victoria and Albert's wedding ever staged. It is followed by a sumptuous wedding breakfast, a prelude to the first night that began a marriage so iconic it heralded constitutional monarchy as we know it today.

Swamp: American Experience
Tuesday, January 15 at 9 p.m.

Learn the dramatic story of humanity's attempts to conquer the Florida Everglades, one of nature's most mysterious and unique ecosystems. Home to a profusion of plants and animals found nowhere else on the continent, Florida's Everglades was an immense watershed covering the southern half of the Florida peninsula. Told through the lives of a handful of colorful and resolute characters, from hucksters to politicians to unlikely activists, this special explores the repeated efforts to transform what was seen as a vast and useless wasteland into an agricultural and urban paradise, ultimately leading to a passionate campaign to preserve America's greatest wetland.

Independent Lens: Rumble – The Indians Who Rocked the World
Monday, January 21 at 10 p.m.

This special is an electrifying look at the Native American influence in popular music, despite attempts to ban, censor and erase Indian culture. Early pioneers of the blues such as Charlie Patton had Native as well as African-American roots, and one of the first and most influential jazz singers, Mildred Bailey, had a voice trained on Native American songs. As the folk-rock era took hold in the ‘60s and ‘70s, Native Americans such as Peter La Farge and Buffy Sainte-Marie helped to define its evolution, and Native guitarists and drummers like Link Wray, Jimi Hendrix, Jesse Ed Davis and Randy Castillo forever changed the trajectory of rock and roll. Innovative re-creations, archival concert footage and interviews bring the music and musicians to life.

Doc Martin Season 8
Thursday, January 24 at 9 p.m.

This popular British drama returns for an all-new eighth season, beginning on January 17. Dr. Martin Ellingham is back in Portewn with his wife, Louisa, and their son, James Henry. However, the usual Portewn antics and happenings quickly take their toll on the grumpy Doc Martin. As he tries to reconcile with Louisa’s sudden career change and raise James Henry through his teething stage, his blood phobia causes a disaster with a patient, resulting in Doc Martin’s suspension from practicing medicine. Can he deal with these changes, or will he risk the fragile accord he’s built with his family? In this week’s episode, Martin and Louisa need to find day care for James, Ruth considers selling her farm and Al’s stress level takes a toll on his body.

### Independent Lens: The King
**Monday, January 28 at 9 p.m.**

Forty years after the death of Elvis Presley, filmmaker Eugene Jarecki takes The King’s 1963 Rolls-Royce on a musical road trip across America. From Memphis to New York, Las Vegas, and beyond, the journey traces the rise and fall of Elvis as a metaphor for the country he left behind. A diverse cast of Americans join the journey including Alec Baldwin, Rosanne Cash, Chuck D, Emmylou Harris, Ethan Hawke, Van Jones, Mike Myers and Dan Rather, among many others. This special is followed by **Elvis Lives: The 25th Anniversary Concert** at 11 p.m. Through the magic of modern technology, Elvis Presley is reunited with his original TCB band and back-up singers 25 years after his death. This unique program features Elvis from some of his most memorable concerts.

### Nature: Naledi: One Little Elephant
**Wednesday, January 30 at 8 p.m.**

Born inside a sanctuary in the wilderness of Botswana, Naledi the baby elephant loses her mother and faces the world alone. Dedicated caretakers rally to adopt the baby elephant, save her life and reintroduce her to the herd that had forgotten her. Although elephant families are close, the program shows how precarious it is for a newborn to survive once it has lost its mother. The team must separate Naledi from the herd, work to establish a bond and finally entice her to take milk from a bottle. Later, the film documents the cautious reintroduction of Naledi to her sisters and the rest of the family, hoping that she will be accepted by the herd.

The Great Yellowstone Thaw Marathon
Sunday, January 13 from 9 a.m. to Noon

Witness one of the greatest seasonal changes on planet Earth in this stunning three-part series airing back-to-back. Filmed over the course of several intense months, from deep winter to early summer, the special intercuts the stories of several different animal families — including wolves, bison, grizzlies, beavers and great gray owls. From winter to summer, Yellowstone’s temperature typically swings 140 degrees. The series follows the animals in the Yellowstone ecosystem as they emerge from winter’s cold and adapt to an early spring thaw, before encountering the soaring summer temperatures. Explore how these animals fend off floods, starvation and fires, as well as the area’s extreme evolution from cold to hot during the spring season, showcasing the extraordinary survival instincts these natural species possess.
Earth's Natural Wonders
Sunday, January 20 from 12:30 p.m. to 3:30 p.m. (Season 2) and Sunday, January 27 from 10 a.m. to 1 p.m. (Season 1)

Earth's natural wonders are parts of the natural world that nature has carved on such a scale, that they beggar belief. These include vast mountain ranges, impermeable rainforests and dazzling tropical islands — places where nature is visible at its most primal, most powerful and most extraordinary — beautiful. But many of these natural wonders are among the world’s most inhospitable environments and so present unique challenges for their inhabitants. See how the people who live in some of our planet’s most spectacular places overcome those challenges and how human resilience, ingenuity and bravery overcome the most extraordinary odds in the great struggle for life.

## Holocaust Remembrance Day

**Sunday, January 27 from 1 p.m. - 4:30 p.m.**

Treblinka’s Last Witness at 1 p.m. tells the story of Samuel Willenberg, who was the last living survivor of the Treblinka death camp. Still haunted 70 years later by the horrors he witnessed, Samuel has immortalized the Treblinka story in a series of bronze sculptures of the tragic victims who dwell indelibly in his memory like ghosts. At 2:30 p.m., We’ll Meet Again: Surviving the Holocaust follows Ann Curry as she joins two Holocaust survivors searching for those who gave them hope in the darkest days. Then at 3:30 p.m., we present Remembering the Holocaust: Las Vegas Survivors Tell Their Stories. Nearly 350 Holocaust survivors live in the Las Vegas area. Though they survived the Holocaust, most have not escaped the pain. These are the recollections of Las Vegans who wanted to share their stories.

Nature: Equus: The Story of the Horse
Fridays, January 18 and 25 at 8 p.m.

We built the world around us with horsepower. But what is it that makes humans and horses so perfect for each other? And how have we transformed the wild horse we tamed 6,000 years ago into over 400 specialized breeds today? To answer these questions, anthropologist-turned-filmmaker Niobe Thompson takes viewers on an epic journey across eleven countries and back in time to the mysterious beginnings. In this new two-part special of cutting-edge science and gripping adventure, Thompson explores the evolution of horsepower and learns fascinating new insights into the body and mind of this unique animal. He embarks on a global adventure of discovery, living and riding with horse nomads in Arabia, Siberia and Mongolia, travelling into the field with archeologists and horse psychologists, and above all, getting friendly with horses everywhere he goes.

Eye on the Sixties:
The Iconic Photography of Rowland Scherman
Sunday, January 27 at 10:30 p.m.

Famed “LIFE” magazine photojournalist Rowland Scherman captured some of the most transformational political, cultural and musical events of the 1960s — from the March on Washington to the first American Beatles concert to Robert F. Kennedy’s ill-fated presidential campaign to Woodstock. At the sites of some of his most famous photos, Scherman reveals candid and insightful anecdotes from his storied career, reflects on his life and his legacy, and muses about his medium’s relevance in the digital age, and the passage of time. Scherman also shares seldom-seen images of politicians and celebrities of the 1960s, including President Lyndon Johnson, folk sensations Joni Mitchell and Judy Collins, tennis great Arthur Ashe, TV journalism pioneer Barbara Walters, a young Bob Dylan, and JFK with the very first Peace Corps volunteers of 1961.

Why We Support Vegas PBS...

The Smith Center brings the world’s most esteemed artists to Southern Nevada to inspire and entertain. Education is also in our DNA. Beyond presenting the best of music, theater and dance, we engage younger generations in the arts through our education and outreach programs.

That is why we support Vegas PBS. Both of our organizations believe in the power of the arts to foster creativity, to motivate kids and to enrich people’s lives.

The experience of live performances in our own community at The Smith Center and the broadcast of shows from far-away places on PBS makes for an exciting and powerful collaboration.

I volunteer my time to Vegas PBS because I believe in the power of public television. I couldn’t imagine a better partner for The Smith Center. Together, we have produced local and national television specials that have not only brought joy to a vast audience, but also shined a white-hot spotlight on our amazing community.

Vegas PBS deserves our support.
