

KSPS PBS **STEAM** in Schools

After School Academic Support

We provide after school programs to area elementary students, where they get to engage in hands on and interactive learning experiences. Students will get to learn and play with all of their favorite PBS KIDS characters!

Free PBS KIDS
Enrichment Programs
(Grades K - 3)

STEAM Focused Activities:

- Engineering/Problem Solving
- Coding
- Math
- Art
- Literacy
- **AND MORE!**

Free Books and Tablets

1,600+ free take-home books and 175+ educational tablets have been given to students of our programs!

Take a look at what other families have said about our programs:

"We loved the ScratchJr workshop. Super fun and exciting. My kids learned a lot and use coding at home all the time now. Thank you!" ~FCL Parent

"The workshops made my child more interested to learn and I'm grateful for that." ~FCL Parent

"My child loved the coding class, the only thing she said that could make it better is if it didn't end!!!!" ~Scratch Jr. Parent

Family and Community Learning

Children and caregivers engage in quality science learning using videos and support materials from PBS KIDS programs such as *Molly of Denali*, *Ready Jet Go!*, and *Curious George*.
