

**August 20, 2021**

## **Learn at Home, Too! Launches September 2021**

This Fall, Montana PBS continues its commitment to make resources available to every Pre-K through 12 student and teacher who needs educational resources for learning at home. Enjoy award-winning children's programming every weekday morning and afternoon for children ages 3-8, plus selected programs broadcast from 12noon to 3pm for kids ages 9 and older.

The daytime weekday schedule is dedicated to Montana state standards-aligned educational programming provided by Montana PBS and the Office of Public Instruction. Subjects include language arts, social studies, science and math. Montana PBS' regular primetime schedule is not affected by this change.

"After a full academic year of Learn at Home programming, we're excited to continue this newer condensed version of the initiative so we are providing succinct and easy to access digital learning resources for families and educators no matter their learning environment," said Nikki Vradenburg, Director of Education at MTPBS.

Montana PBS has curated digital curriculum-aligned lesson plans on their Learn at Home webpage, and will continue to update these resources on a monthly basis throughout the fall.

- **Distance Learning Webpage:** View selected monthly educational resources, as well as articles and activities created and/or vetted by the Montana PBS Education team, other public media organizations and other trusted education partners. Visit [montanapbs.org/learnathome](https://montanapbs.org/learnathome).
- **Digital Media Collections:** View and download full resource collections on PBS LearningMedia that correspond with the TV broadcast schedule. Collections include curated media and lesson plans, sorted by grade level and subject area. Visit [montana.pbslearningmedia.org](https://montana.pbslearningmedia.org).
