How to Watch

Before getting started with downloading the PBS App Channel, you’ll need to make sure that you have a PBS account.

Be sure to use your personal email when signing up with PBS.

If you already have an account, please move on to step 2.

1. Create a PBS account

2. Search for the PBS Video App

You’ll need to locate the PBS app in the Amazon Fire Channel Store.

• To download the PBS Video, navigate to the Find tab in the menu
• Click on the Search window
• Type in PBS Video in the search bar
Once you’ve found the PBS Video app, you’ll need to add the channel to your library by downloading it. After you’ve added the PBS app, you’ll be able to open it.

- Click PBS Video
- Click Get

`The channel will now appear on your main screen.`

Open the PBS app. You will need to activate it with a unique activation key.

- Open the PBS Video app to begin activation
- An activation code will be displayed on the screen

Once you have your activation code, proceed to Step 5 to use the code on the PBS website.
How to Watch

Once you have your code, go to your desktop or mobile device that's connected to the internet. Open up a web browser and type in the URL bar: pbs.org/activate.

- On your computer, tablet, or phone, open a web browser
- Type in pbs.org/activate in the address bar at the top of the screen

You'll be asked to type in your unique activation code. Click the white text box space next to the blue button, and type in your code. Once you've typed in your code, click Continue.

- Make sure you have your code written down to proceed
- Enter your activation code into the text box that appears
- Click Continue

5. Go to pbs.org/activate

6. Enter your activation code
• Sign in with your PBS Account, Facebook Account, or Google Account

• Go back to the PBS App on your Fire TV and select a program to start watching with the PBS Video App!

7 Sign in to your PBS Account

You’re all done!
