Helper Hat Activity

Materials:
- PBS Community Helpers Hat Sheet
- Sentence Strips
- Crayons or Markers
- Glue Stick or Tape
- Scissors
- CREATIVITY!! :)

Instructions

Let's have some fun and create our very own Community Helpers hat. **What are community helpers?** Community helpers are people in our community that have special helping roles like (doctors, chefs, farmers, and many more.)

So now that we know what a community helper is let’s get started. Follow the easy steps below to complete your hat.

**Step 1:** First we will need our PBS Community Helpers Hat Sheet to pick out the special community helper hat that you would like to design.
Step 2: Once you have selected your helper hat it is time to color it with crayons or markers. Remember to be creative.

Step 3: After you have finished coloring your hat, use your scissors to cut it out. Follow the cutting instructions on your PBS Community Helper Hat sheet. Get your parent/guardian or teacher to help you safely use the scissors.

Step 4: Now you should select one sentence strip to use as the base for your hat.

Step 5: Place your Community Helper cut-out onto the center of your sentence strip. After you have it placed, use the glue stick or tape to paste it onto the strip. (You can also decorate the band of your hat too, but that is optional.)

Step 6: Now that you have your hat glued or taped together, it’s time to finish your hat by adjusting it to fit your head. After adjusting it, tape or glue the sentence strip ends together.

Step 7: Now that your hat is complete, place it on your head so you can show off your creative Community Helper Hat!

ACTIVITY COMPLETE!!
