WINDSOCK ACTIVITY

Tip: use glue & tape for a better hold & instant gratification

SUGGESTED SUPPLIES

- Paper of any kind: construction, wrapping, notebook, etc.
- Scissors, tape, glue, markers, & hole punch
- Decorations of any kind: stickers, folded paper, glitter, sequins, etc.
- Toilet paper rolls, string and/or ribbon
- Leftover holiday napkins work in lieu of paper
WINDSOCK ACTIVITY

Hang your masterpiece on the porch or in the garden.

Now let's observe the invisible power of the WIND!

FINISHED PRODUCT
As we learned from our friends at Hero Elementary, The Invisible Force (or the wind) can do some amazing things! It's time to use your Super Powers of Science to see what the wind does to your windsock. Use the space below to log your observations.

Here are some questions to get you started. In what direction does your windsock move? Does it move fast or slowly? Does it move more during the day or night? What about when it's a rainy day or a sunny day?
SUPERPOWERS OF SCIENCE!
SPARKS’ CREW TO THE RESCUE!
