

PREMIERES DECEMBER 19 AT 8:30PM

At a time when more than 60% of Americans are living paycheck to paycheck, a lack of knowledge about financial resources and strategy continually prevents many people from identifying ways to break free from financial hardship. This series follows six families who are paired with nationally known financial experts who offer guidance as empowerment coaches. You'll witness aspirational journeys of financial and life transformations as the families learn to take control of their finances.
