Additional Sponsorship Opportunities

We produce and ship each of these branded items for you (except where noted). **In order to meet production and print delivery dates, the deadline for these opportunities is Friday, February 22, 2019.** Booth discount is not valid with these add-on opportunities.

Wi-Fi Sponsor

Fee: \$10,000

At events like ours, Wi-Fi is essential. With this sponsorship, our attendees will only have you to thank for getting what they want: FREE Wi-Fi. Immediately upon connecting to the conference network, users will see your name on the splash page. You will also receive: a special “Wi-Fi Sponsored By ...” banner and link to your website on the mobile app; premium placement on signage displayed throughout the conference area, on the conference website and on the rotating slides prior to and after each general session; and a special thank you from the main stage. Don't miss your chance to claim this highly sought-after sponsorship.

Mobile App Premium Sponsor

Fee: \$10,000

Achieve maximum exposure on our mobile app guide. Your logo will appear as an icon on the main navigation page of the mobile app and will be viewed by all visitors. Customize information available to viewers behind that icon: your website, a list of products, special offers, booth information, etc. Enjoy premium placement at the top of our sponsor and exhibitor list and a free Mobile App Banner Ad (see below). We will mention your company as a sponsor everywhere we advertise our mobile app. Our mobile guide includes all meeting and event schedules and information. Attendees will see your branding every time they reference the guide for directions or conference details. Artwork specifications are provided upon receipt of sponsorship contract.

Mobile App Banner Ads (5 available)

Fee: \$2,000

Mobile banner ads are effective, interactive and eco-friendly. Increase your exposure, spread your message and increase foot traffic to your booth. The interactive sponsor banner is located at the bottom of the app's main menu screen. As users browse the app, these rotating ads get lots of screen time. Clicking on a banner ad directs users to a sponsor page with a customizable image, name and description and “More Info” link to additional information – PDF or webpage.
