

Streaming audio online via SDPB

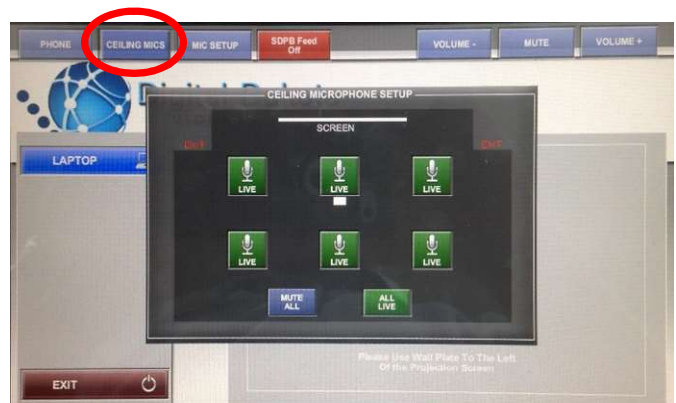

Foss Building – Matthew Training Center – Pierre

Updated
1/12/2017

- 1: Touch panel to wake screen.
- 2: Touch anywhere on the screen to power up the system.

- 3: Ensure that the room mics are not muted, by tapping the "CEILING MICS" and the "MIC SETUP" buttons. Ceiling mics are not muted when green, and the wireless and lav mics are not muted when the Mute buttons are blue.

- 4: Turn on streaming to SD.net by touching the "SDPB Feed Off" button. Button will turn green when feed is active.

NOTE: This screenshot indicates that the room mics are not muted and that the "SDPB Feed" is active. In this case, audio from the room will be streamed online according to the preset schedule.

For in-room technical assistance, please contact DDN video staff: 605-773-3333 ddnschedule@state.sd.us
For assistance with SD.net streaming, please call: 605-677-3935

If the meeting will exceed the scheduled end time, please call: 605-677-3935 to extend the stream.
