

# “Winding Down”

I was stationed at DaNang AB (Camp Stokes), 72-73, serving with the 37th Air Rescue and Recovery Squadron, when the cease fire became effective, ending US military involvement (feb 73). NVN already controlled the vast majority of the country as there were very few Army and Marines left in country. That was the end of the war for me, and it was a harrowing barrage of incoming for several hours, right up to the minute of the cease-fire.
