

"My Magic Glasses"

By

Saatvik Ganesh

One day I was at the super store and I found a pair of magic glasses and wore them on my eyes.

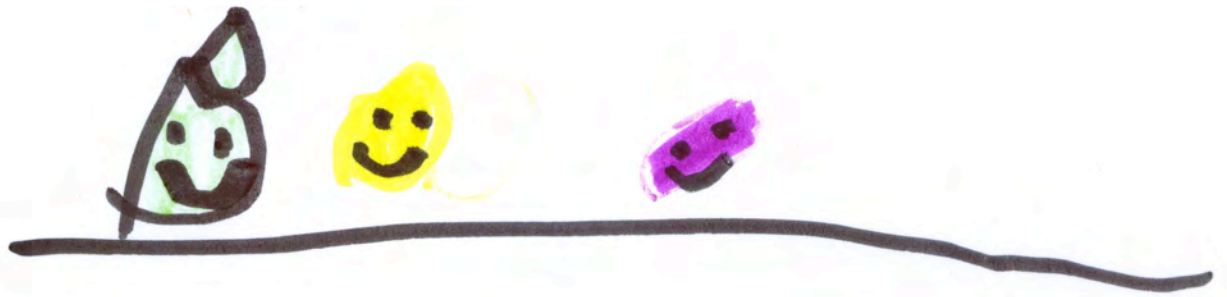

The glasses made all the food talk. The food told me who was healthy and who wasn't. Don't eat candy ,chocolate, soda or cookies, they're not healthy.

I saw oranges and apples who were very sad because the junk food was attacking peoples bodies and making them sick.

The glasses turned all the junk food into healthy food and all the people lived healthy forever and ever.

The end.
