

The CUTE Butterfly

By: Vidisha Shah

It was such a nice sunny day. My brother and I were playing outside. We were having so much fun and then I saw a cute butterfly. ①

I told my brother let's go
and catch that cute butterfly.

I grabbed that butterfly in my hand and showed it to my brother but then the butterfly said, "Oh please let me go. I want to play with my friends." But then I said "you are an insect. How can you play?"

I am almost like a human. Just like you have friends, insects also have friends," the butterfly said. "You can't play because you can't catch or kick a ball." I said. The butterfly says, "But we have our own games like playing tag with our wings."

The butterfly said "It really hurts when you squish my wings. Can you please let me go for I am not bothering you?"

I said "I am so sorry that it was hurting you. I will let you go because I want you to also have fun." And then I let it go.
